An effective technique for figuring out a price is to send out a survey to your present customers. If these clients have already bought an e book from you, ask for their opinion by way of price. Do that by creating a gross sales web page for the new e book, but do not include a price on that page. Instead, add various links to survey questions that ask pointed questions to help you in assigning a worth to your ebook.

One other strategy is to check out costs by creating a number of duplicate gross sales pages with different costs on each page. Be sure that your gross sales copy is precisely the same on each web

page, and includes your promoting-handle sentence. Then work out for each web page the conversion ratio between visitors to your web site and sales of your book. This can tell you what your optimum value is.

In the end, for those who've written a guide that solves a problem or presents a new method, your e book will bring in each traffic and profits.
