An effective approach for figuring out a price is to ship out a survey to your present customers. If these customers have already bought an ebook from you, ask for their opinion in terms of price. Do this by making a sales web page for the new book, but do not include a worth on that page. As a substitute, add quite a lot of hyperlinks to survey questions that ask pointed questions to assist you in assigning a worth to your ebook.

Another technique is to test out costs by making a number of duplicate gross sales pages with different prices on each page. Be certain that your gross sales copy is strictly the similar on each

web page, and consists of your selling-deal with sentence. Then work out for each web page the conversion ratio between visitors to your site and gross sales of your book. This will let you know what your optimum worth is.

Finally, for those who've written a ebook that solves a drawback or presents a new approach, your guide will herald both traffic and profits. So make sure to write that selling-handle sentence that sums up what problem your book solves and what the benefits of your 1206 book can be to the customers who purchase it.
