In addition to promoting your books assiduously online, there are a number of different methods that may allow you to sell more books.

One is to offer one thing away for free along with your guide, such as a precious bonus item. Or bundle a number of ebooks below one value, which lowers the worth for each book if they had been offered separately.

An efficient approach for determining a worth is to send out a survey to your present customers. If these customers have already purchased an ebook from you, ask for their opinion when it comes to price. Do this by making a sales web page for the brand new e-book, however do not embody a price on that page. Instead, add a lot of hyperlinks to survey questions that ask pointed questions to help you in assigning a worth to your ebook.

One other technique is to check out prices by making a variety of duplicate sales pages with

completely different costs on each page. Be certain that your sales copy is exactly the identical on each web page, and includes your promoting-handle sentence. Then determine for every page the conversion ratio between visitors to your website and gross sales of your book. This will inform you what your optimum price is.

Finally, for those who've written a e book that solves a downside or presents a new technique, your book will herald both visitors and profits. So you'll want to write that promoting-handle sentence that sums up what drawback your guide solves and what the advantages of your 2700 book might be to the customers who purchase it. And then watch your market come to you!
