An effective technique for figuring out a worth is to send out a survey to your current customers. If these clients have already purchased a book from you, ask for their opinion in terms of price. Do that by creating a gross sales web page for the new ebook, but do not embrace a value on that page. Instead, add numerous links to survey questions that ask pointed questions to assist you in assigning a price to your ebook.

Another technique is to check out prices by making a number of duplicate gross sales pages with totally different costs on each page. Be certain your gross sales copy is strictly the same on each web page, and includes your promoting-handle sentence. Then determine for every web page the conversion ratio between guests to your website and gross sales of your book. This will tell you what your optimum value is.

In the end, in the event you've written a e-book that solves a problem or presents a new method, your guide will herald both visitors and profits.
