An effective technique for determining a price is to send out a survey to your current customers. If these prospects have already bought an e book from you, ask for his or her opinion in terms of price. Do that by making a gross sales web page for the new ebook, however don't embrace a price on that page. As an alternative, add a variety of hyperlinks to survey questions that ask pointed questions to help you in assigning a worth to your ebook.

One other strategy is to check out prices by making a variety of duplicate sales pages with different prices on each page. Make sure that your gross sales copy is exactly the similar on every page, and includes your promoting-handle sentence. Then determine for each page the conversion ratio between guests to your site and gross sales of your book. This can inform you what your optimum value is.

In the end, if you've written a ebook that solves a drawback or presents a brand new approach, your ebook will herald both visitors and profits. So you'll want to write that selling-handle sentence that sums up what drawback your e book solves and what the benefits of your *Strand7 Manual* guide will probably be to the customers who buy it.
